

**06 September 2021** Alexander van Oudenaarden, Hubrecht Institute, Utrecht, The Netherlands  
**Ribosomal profiling in single cells**

**13 September 2021** Len Zon, Boston Children's Hospital, Boston, U.S.A.  
**Stem cell clonality and the niche**

**20 September 2021** Ravi Majeti, Stanford University, Stanford, U.S.A.  
**Stem cells in human AML**

**27 September 2021** Elli Papaemmanuil, Memorial Sloan Kettering Cancer Center, New York, U.S.A.  
**Genomic studies of myeloid disease**

**04 October 2021** Jorge di Paola, Washington University School of Medicine, Saint Louis, U.S.A.  
**Molecular mechanisms of ETV6 associated thrombocytopenia and cancer predisposition**

**11 October 2021** Nicoletta Sorvillo, University of Bern, Bern, Switzerland  
**NETs and extracellular citrullination: friends or foes in vascular health?**

**18 October 2021** Christopher Ott, Massachusetts General Hospital, Boston, U.S.A.  
**Chemical modulation of enhancers**

**25 October 2021** Marina Cavazzana, Necker Hospital, Paris, France  
**Gene therapy in genetic disorders**

**Every Monday**  
**16:00-17:00 hrs /**  
**04:00-05:00 PM CET**

- 01 November 2021** John Welch, Washington University School of Medicine, Saint Louis, U.S.A.  
**Decitabine responses in AML/MDS**
- 08 November 2021** Dave Bodine, National Human Genome Research Institute, Bethesda, U.S.A.  
**A practical and theoretical understanding of Diamond Blackfan anemia revealed by genomics**
- 15 November 2021** Marjorie Brand, Ottawa Hospital Research Institute, Ottawa, Canada  
**Cell fate decisions in hematopoiesis and T-cell leukemogenesis**
- 22 November 2021** Walter Kahr, The Hospital for Sick Children & University of Toronto, Toronto, Canada  
**Insights into megakaryocyte development from inherited platelet disorders**
- 29 November 2021** Scott Armstrong, Dana-Farber Cancer Institute, Boston, U.S.A.  
**Targeting epigenetic mechanisms in leukemia**
- 06 December 2021** Amanda Fisher, MRC London Institute of Medical Sciences & Imperial College London, London, U.K.  
**Epigenetic memory**
- 20 December 2021** Madhav Dhodapkar, Emory University, Atlanta, U.S.A.  
**Early tumor immune interactions and opportunities for prevention in plasma cell malignancies**
